Performance Annual Report 2013

I. General Information

Facility/System Name: Red Springs Wastewater Treatment Plant

Responsible Entity: Town of Red Springs

Person in Charge/Contact: Brian Stephens 910-843-2256

Applicable Permit: NC0025577 / WQCS00083

Description of Waste Water Treatment System:

Operation of a 2.5 MGD wastewater treatment facility consisting of a automatic bar screen; automatic ram press; grit removal by two grit pumps dual oxidation ditches, dual secondary clarifiers, gas chlorination units, dual path chlorine contact chamber, dechlorination, continuous recording effluent flow measurement two aerobic sludge digesters, sludge drying beds and back- up generator. This facility is located off Green hill Drive east of Red Springs in Robeson County. The discharge from this plant is into Little Raft Swamp, a class C- Swamp stream in the Lumber River Basin. The wastewater collection consists of 20 miles of gravity flow sewer lines and 4.5 miles of force mains. We have 7 duplex lift stations that pump sewer water to different locations through out the collection system.

II. Performance

System performance for calendar year 2013

Collection System Violations : Had spill due to contractor hitting towns force main during gas line install .

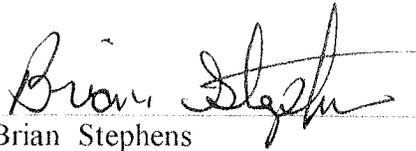

Violations for 2013 consist of low level mercury all twelve months . Five Cyanide Violations ,One Zinc Violation , Three copper Violations , One TRC Violation due to equipment failure at plant .

III. Notification:

Public notice placed in local newspaper summarizing this report and informing the public that a copy of this report can be obtained at the Red Springs Town Office.

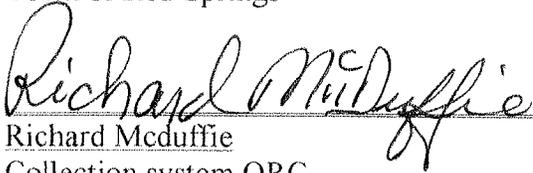

IV. Certification

I certify under penalty of law that this report is complete and accurate to the best of my knowledge. I further certify that this report has been made available to the users or customers of the named system and that those users have been notified of its availability.
